

# Sewer Clean-Out

## Village of Crete Guides

Publication 08-020  
Last revision 12/15/2008

### Permit Procedures

- \*\* All applicants must submit a completed permit application, contract or proposal that shows the location of the work with respect to buildings and lot lines.
- \*\* All work must be done by a licensed sewer or plumbing contractor.
- \*\* Contractors must be licensed with the Village of Crete and provide State of Illinois Department of Public Health Registration License.

### Construction Requirements

- \*\* Call J.U.L.I.E. (Joint Utility Location Information for Excavators) at 1 800 892-0123 to locate underground utilities.
- \*\* All sewer repairs or replacements must be bedded and covered in 3/4" or #6 compacted wash gravel
- \*\* PVC Schedule 40 or SDR #26 pipe is required.
- \*\* Install 6" PVC "T" for exterior clean-out. Extend clean out 4" above grade, cap required.
- \*\* Install non-shear mission couplings to make connection to dissimilar pipe materials.
- \*\* Remove all old pipe and any debris from trench prior to backfill.
- \*\* Rod out sewer prior to backfill.

### Inspection Requirements

- \*\* Upon completion of repairs but prior to backfill, an inspection is required.
