1021 NORTH GRAND AVENUE EAST
POST OFFICE BOX 19276
SPRINGFIELD, ILLINOIS 62794-9276

STATUS OF COMPLIANCE WITH PERMIT CONDITIONS
REPORT PERIOD MARCH 2018 TO MARCH 2019

Measurable Goals

PUBLIC EDUCATION AND OUTREACH

- A-1 Informational brochures were made available at the Village hall and on the Village web site.

During the next reporting cycle the Village will continue to make available information brochures.

- A-3 The Village has included water quality language on their web site.

During the next reporting cycle the Village will continue to provide water quality language on their web site.

- A-6 The Village has included informational brochures and material on their web site.

During the next reporting cycle the Village will continue to provide water quality language on their web site.

PUBLIC PARTICIPATION/INVOLVEMENT

- B-5 & The Village has encouraged and cooperated with the following: A Community wide
B-6 Group, including Church Groups, Sports Teams and General Public.

The Group cleaned up trash along several roads and right-of-ways within the Village. These right-of-ways are tributary to the Village's waterways.

During the next reporting cycle the Village will once again cooperate with a Community Group doing cleanup work along right-of-ways.

ILLICIT DISCHARGE DETENTION AND ELIMINATION

- C-1 The Village is continuing to update storm sewer maps. These maps show topography, storm sewer routing, discharge points and receiving streams.

During the next reporting cycle the Village will update storm sewer maps. As required.

- C-2 The Village obtained a model Illicit Discharge and Connection Ordinance and is in the process of editing it and considering it for Board action.

During the next reporting cycle the Village will continue consideration of an Illicit Discharge and Connection ordinance.

CONSTRUCTION SITE RUNOFF CONTROL

- D-1 The Village required all projects and developments of one acre or more to obtain IEPA (NOI) ILRIO Permits prior to any work commencing on site.

During the next reporting cycle the Village will continue to require development to obtain IEPA (NOI) ILRIO Permits.

- D-4 The Village reviewed all development plans to ensure their compliance with the Will County Storm Water management Ordinance and IEPA requirements.

During the next reporting cycle the Village will continue to review all development plans to ensure their compliance with IEPA requirements.

- D-6 The Village Public Works Department inspected all construction activities during this reporting period to assure the erosion control measures were in place and functioning.

During the next reporting cycle the Village will continue their inspections of all construction activities.

POST CONSTRUCTION RUNOFF CONTROL

- E-2 The Village enforced the Will County Storm Water Management Ordinance.

During the next reporting cycle the Village will continue to enforce the Will County Storm Water Management Ordinance.

- E-4 The Village Engineer reviewed site development plans and encouraged the use of BMPs such as stream & intermittent waterway preservation and the use of natural vegetation in detention facilities.

During the next reporting cycle the Village Engineer shall continue to review development plans and encourage the use of BMPs.

POLLUTION PREVENTION/GOOD HOUSEKEEPING

F-1 In May of 2018 the Village Public Works held a safety meeting after which educational material on storm water pollutant discharges was handed out and discussed with all employees present.

During the next reporting cycle the village will continue to involve the Public Works employees in active discussions on illicit discharges.

F-2 The Village is in the process of maintaining the storm sewer maps. These maps are an integral part of developing a Village wide program of inspections of streams, storm sewer outfalls and detention ponds. During this reporting period the Village has made inspections of various stream locations, outfalls and ponds.

During the next reporting cycle the Village will continue their inspections of random outfalls, and ponds. The major streams – Deer Creek, Goose Creek, and Plum Creek, will be inspected at the entrance to and exit from the Village.

The Village has a street cleaning program in which the streets are cleaned twice a year.

The Village cleaned approximately 20% of the Village's catch basins during this reporting cycle.

VILLAGE OF CRETE
LIST OF VILLAGE PROJECTS
MARCH 2018 TO MARCH 2019

1. Downtown TIF Parking Phase 2.
